

BATTERY SAFETY INFORMATION

Read and abide by **WARNING** notice below for your safety.

اقرأ إشعار التحذير أدناه والالتزام به حفاظاً على سلامتك.

Przeczytaj i przestrzegaj poniższej OSTRZEŻENIA dla własnego bezpieczeństwa.

安全のため、下記の警告事項をよく読み、それに従ってください。

Lea y respete el siguiente aviso de advertencia para su seguridad.

WARNING: LI-ION CELLS HAVE INHERENT RISKS IF MISUSED or MISHANDLED. CELL CAN EXPLODE CAUSING SEVERE BURN INJURY, FATALITY, AND PROPERTY DAMAGE.

READ BELOW THOROUGHLY.

CELL = BATTERY

- **KEEP OUT OF REACH** of anyone under 18 years of age, AND pets.
- **DO NOT PUT IN FIRE**, oven, microwave, or expose to anything over 100°C (212°F).
- **DO NOT CARRY** or store **OUTSIDE** of its protective packaging or a **PROTECTIVE CELL CASE**.
- **DO NOT PUT CELL IN POCKET**, bag, purse, or anywhere **WITH METAL OBJECTS** including **COINS** and **KEYS**. Cell needs to be in protective packaging or case at all time when not in use. Otherwise, the cell could short-circuit and explode.
- **DO NOT PUT A DEVICE WITH CELL INSTALLED IN POCKET or ON YOUR BODY**. A device malfunction or conductive debris or objects in pocket can overload or short-circuit cell and explode. As a safety precaution, do not carry a device in pocket or on your body.
- **DO NOT USE IN A DEVICE THAT CAN EXCEED MAX CELL WATTAGE (W) OR AMPERAGE (A)** (listed on each cell and packaging). Doing so can overload cell(s) causing it to explode.
- **DO NOT USE LOWER RESISTANCE (Ω) #** (listed on each cell and retail packaging).
- **DO NOT USE CELL WITH DAMAGE TO ITS STRUCTURE OR OUTER PROTECTIVE LABEL** (also called "WRAP", "sleeve", "skin"). Damage may include: dent(s), tear(s), nick(s), puncture(s), corrosion, or any other abnormalities or undisclosed damage(s).
- **DO NOT LEAVE UNATTENDED WHILE CHARGING & REMOVE CELL(S) ONCE FULLY CHARGED** to ensure it is not exposed to any potential charger malfunction such as overcharging.
- **DO NOT CHARGE ABOVE MAX CHARGE VOLTAGE (V)** (typically 4.2V) or **DISCHARGE BELOW MAX VOLTAGE CUT-OFF (V)** (typically 2.5V). Doing so can damage cell and explode.
- **DO NOT MIX WITH USED OR DIFFERENT TYPE OF CELL(S)**. Differences in capacity can lead to one or more cells to be overcharged / over-discharged and cause it to explode.
- **IF USING A MULTI-CELL DEVICE**, the device **MUST HAVE A NON-CONDUCTIVE BARRIER** (typically plastic) OR **FITMENT** that **PREVENTS CELL(S) FROM TOUCHING THE SIDE(S) OF ONE ANOTHER OR ANY ADJACENT METAL** except for center of top & bottom of each cell. Otherwise, cell(s) can short-circuit and explode.
- **ALWAYS** replace cell when capacity has decreased, up to a maximum of 12 months (1 year) when used in a removable-battery device (any device that cell can be removed). Otherwise, cell degradation and wear incurred from repeated removal/installation can impede safety and subject cell to being short-circuited causing it to explode.
- **ALWAYS** use, connect, charge, and operate cells within their capabilities as listed on cell and packaging, while adhering to the device's user manual.
- **COMPLETELY READ** and follow the **WARNING** (⚠) listed on cell, packaging, and on the product detail pages of www.HohmTech.com.
- **VISIT** www.HohmTech.com for greater detail on safety and technical information.
- **SEARCH** www.YouTube.com for **"18650 EXPLOSIONS"** to understand the importance of consistently taking safety precautions and using Li-ion cells properly. Hohm Tech advocates recycling and replacing any damaged Li-ion cell.

CELL = BATTERY

AS A SAFETY PRECAUTION:
DO NOT PUT DEVICE OR CELL IN POCKET OR CARRY ON YOUR BODY
A DEVICE MALFUNCTION, AS WELL AS METAL OBJECTS (such as keys/coins) CAN SHORT-CIRCUIT A CELL CAUSING IT TO 'LEAK', GET HOT, OR EXPLODE

KEEP YOUR LABEL 100% INTACT

BEFORE EACH USE,
INSPECT FOR DAMAGE

(nicks, tears, puncture, dents, etc.)

GOOD CELL

This cell's label ("wrap") is fully intact with no sign of nicks/tears or punctures. If it is the correct size & meets the amp or watt rating of device, it is ready to use.

READY TO USE

BAD CELL

This cell's label ("wrap") is compromised and considered a damaged cell. This cell should be recycled and replaced immediately.

DO NOT USE

VISUALLY

and **BY TOUCH**
TO SEE/FEEL FOR ANY DAMAGE

FEEL ALL OVER EACH CELL FOR ANY DAMAGE NOT DETECTED VISUALLY
